Recap of the Touch-A-Truck event on June 23

- What went well
- What would we change next time

Update from Johnson regarding a conceptual design

- Discussion regarding what can be shown at Grange Fair, no like last year- something that will remain similarly consistent in going forward.
 - Explanation of a conceptual design, this is not the final design, just looking for community input, the conceptual design is the bare minimum of needs to operate and function as a Fire & Police Department.
 - Discussion that the original proposal was off the table, we are looking at a basic box and how to ensure that the needs of both Fire & Police are met.

Discussion regarding if other site visits of combined buildings might be necessary.

- Salisbury, the building was built as combined, but unsure if the PD was ever used, as currently there isn't one
- Bridgewater

Meetings will be held on the 2nd Thursday of the Month at 7pm. These dates have been posted on the Town Website.
